

Genocide against Macedonians in the 21st century

Republic of Macedonia is a captive occupied country, and Macedonians live under terrible terror and all kinds of violations of human rights by the dictatorial regime headed by Prime Minister Zaev. Breach of all elementary human rights and freedoms, in the sphere of freedom of speech, freedom of the media, the right to a fair judiciary are violated and all institutions are captured absolutely, and the government is overwhelmed by corruption and nepotism. The lawlessness goes as far as the Prime Minister, as a brutal dictator and the government, outside its jurisdiction and the Constitution of the Republic of Macedonia, signs international agreements with other countries to the detriment of the Macedonian people and its state. With those agreements, as with the agreement with Greece, the state of Macedonia breaks, discriminates, humiliates the Macedonian people in a compare to all other nations, and sets Greece in a hegemonic, occupying, superior and narrative role on the Macedonians. The inhumanity of this government and the violation of the elementary human rights of self-determination of Macedonians, with the intention not to wipe out all institutions within the state and international agreements, goes to what is planned to call a referendum for us Macedonians by gender to declare themselves a ballot paper whether we are or are not Macedonians which is terrible, discriminatory, insulting and irreconcilable for the 21st century. In this agreement signed by this dictatorship government, it is also foreseen to delete the Macedonian language, which is otherwise coded language and one of the oldest living languages on the planet, and its renaming with the word "slavs" Macedonian, which is otherwise a tribal name from 2th century ,and is unheard of behavior for 21 century. This agreement is also predicting for the Macedonians not to have a rights to learn and know their own history and to be strongly punished and prosecuted if they dare to right or teach about this.

We Macedonians by genus seek protection from this genocide.

In addition I am sending you a letter with the genesis of events since the beginning of the establishment of this genocidal government in 2017 to the present day.
