The National Action Plan (NAP) for the Fight against Human Trafficking 2024-2025 is the most important national political document that coordinates state actors, international organizations and civil society in joint efforts to combat human trafficking. The plan is a clear expression of the will of the Albanian Government to take all the necessary institutional, legal and budgetary measures to respond in a coordinated manner to human trafficking. The bases of interventions and actions defined in the National Action Plan remain prevention, investigation and follow-up, protection and social and economic reintegration of the victim/potential victim of trafficking. This document is a continuation of the anti-trafficking objectives foreseen in the Strategy against Organized Crime and Serious Crimes 2021-2025 and the National Action Plan for the Fight against Trafficking in Persons 2021-2023, but adapted to the dynamics of trafficking, the new governing vision in the approach to the phenomenon of trafficking to create a well-oriented platform of goals and strategic objectives in accordance with other national strategic documents, as well as the recommendations of international partners.
