Dear Ms Kanaan,

Attached is the HAQ report submitted for the Universal Periodic Review fro BAHRAIN scheduled for April 2008.

The report is a 5-pages report covering three main themes:

- The right to participate in the public affairs,
- The right to enjoy adequate living standards
- Politically Motivated Change of Demography

Due to the limited space, many of the citations in the main report were made into hyperlinks, where possible, others were compiled into Appendices, as in the list attached.

Should you, or any of the OHCHR experts would like further supporting documents or information, please don't hesitate to approach by any of the means convenient.

Thank you for the cooperation

Sincerely yours
