

## **ADVANCE QUESTIONS TO CZECH REPUBLIC – ADD.2**

### **UNITED KINGDOM**

- We would be grateful if you could provide information about how the Czech Republic monitors discrimination cases and how it measures the effectiveness and enforceability of the Anti-Discrimination Act? We note there is a lack of statistics on cases of discrimination (racial, age, sex, etc.) and that there have not been many successful cases before the court where the Anti-Discrimination Act would be applied.
- We welcome that the Czech Republic intends to phase out segregation of Roma children in “special” schools for children with mild mental disabilities. What specific steps have been taken to achieve this and what is the timeframe?
- We would be grateful for information regarding the measures that have been taken to prevent trafficking of Czech nationals abroad and foreign nationals into the Czech Republic?
- In the light of growing social tensions which have surfaced over the past year or so in various regions, we would appreciate some information on how the Czech Republic is promoting cohesion and tolerance of minorities?
- With respect to the intention of the Czech Republic to compensate Roma women who were forcibly sterilised, we would be grateful to receive information on any recent steps, including removal of the statute of limitations bar on bringing cases?
