

ADVANCE QUESTIONS TO CYPRUS-ADD 1

DENMARK

- Denmark welcomes the fact that Government of Cyprus adopted measures making it possible for undocumented children to access school/education. We would like to ask to what extent Cyprus plans to improve the access of undocumented migrants to social and economic rights such as housing, employment and social support?
- In relation to the government's efforts to promote the new work permit system, we would like to know to what extent this system has made exploitation for sexual and/or labour purposes more transparent – and if not, what other measures the government plan to adopt limiting human exploitation?
