

ADVANCE QUESTIONS TO BOLIVIA (PLURINATIONAL STATE OF) – ADD.1

SLOVENIA

- Slovenia attaches great importance to the human rights education. In your report, we noted that Plurinational Plan on Human Rights Education was prepared with the participation of civil society and entered into force in 2013. We would be interested to hear more about the main elements of this program as well as to learn if the human rights education is included in the school curricula.
- In your report we noted that Bolivia has adopted an Action Plan against Racism and All Forms of Discrimination (2012 - 2015) which promotes the adoption of political, legislative, policy and administrative measures to eliminate racist and/or discriminatory practices. Could you elaborate more on the exact measures undertaken in the implementation of this plan?
