**Item 6:
Consideration of UPR reports**

Saint Lucia

Mr. President,

Amnesty International welcomes Saint Lucia's acceptance of recommendations to ratify a number of core international human rights treaties, including the International Covenant on Civil and Political Rights, the International Covenant on Economic, Social and Cultural Rights and its Optional Protocol, and the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment and its Optional Protocol.¹ We are concerned to note, however, that Saint Lucia accepted similar recommendations during its first UPR in 2011 and failed to implement them. We urge Saint Lucia to act promptly to ratify these core international human rights treaties.

We were pleased to note Saint Lucia's acceptance of recommendations to enact comprehensive legislation to guarantee the principle of non-discrimination and to ensure the full enjoyment of all human rights by every member of society.²

Mr. President,

We are concerned that local lesbian, gay, bisexual, transgender and intersex (LGBTI) activists continue to report discrimination and violence. According to the Saint Lucia NGO *United and Strong*, there is a history of murders of LGBTI persons on the island which bear the characteristics of hate crimes. In 2015, according to news reports, a 17

year old male was stabbed over 50 times and had his throat slit. Human rights activists believe he was targeted because of his perceived sexual orientation, and report that while an investigation was started no one was brought to justice for the crime. We therefore welcome Saint Lucia's acceptance of recommendations to strengthen the fight against discrimination based on sexual orientation or gender identity³ and to implement human rights education and anti-discrimination awareness-raising programs.⁴ Amnesty International regrets, however, that Saint Lucia rejected recommendations to repeal all legal provisions prohibiting and punishing same-sex sexual relations between consenting adults.⁵

Finally, Mr. President,

While Saint Lucia has observed a *de facto* moratorium on the use of the death penalty for 20 years, the government has failed to draw attention to the very serious human rights concerns inherent in the death penalty and to promote its abolition. We regret Saint Lucia's decision to reject recommendations to establish a moratorium on executions with a view to abolishing the death penalty and to ratify the Second Optional Protocol to the International Covenant on Civil and Political Rights.⁶

Thank you, Mr. President.
